

From April 16 to May 5, 2025, Data for Progress, in partnership with Equis, conducted a survey of 2,545 U.S. Latino registered voters nationally using SMS, live caller, and web panel respondents. The sample was weighted to be representative of Latino registered voters by age, gender, education, race, geography, and recalled presidential vote. The survey included oversamples of 2024 non-voters and a pooled set of AZ, NM, and NV. It also included oversamples of the following pooled congressional districts: CA-03, CA-09, CA-13, CA-22, CA-27, CA-40, CA-41, CA-45, CA-47, AZ-01, AZ-06, NV-03, NM-02, CO-08, TX-28, TX-34, TX-15, NJ-07, NJ-09, NY-03, NY-04, NY-17, PA-07, PA-08. The oversamples were weighted to ensure proportional representation of registered voters. The survey was conducted in English and Spanish. The margin of error associated with the sample size is ±2 percentage points. Results for subgroups of the sample are subject to increased margins of error. This survey has been abridged for public consumption. For more information please visit dataforprogress.org/our-methodology.

N=2,545 unless otherwise specified. Some values may not add up to 100 due to rounding.
